

Chat and Plant Group

Cost: £1950

Project location:
Rouken Glen Park

This group brings the local Community together to learn, experiment and grow their own produce, while making new friends and getting out the house for a nice cuppa and a good ole chat!

What is your project?

We would like to run professionally led sessions to encourage more people to participate and learn new sustainable skills. These will include Wreath Making, Composting, Flower arranging, bee keeping and much more. We are looking to increase the size of the group and we feel this would encourage others to get involved.

In order to make this group sustainable long term, we would love to use the fund to purchase Gardening equipment, soil, seeds, and of course tea and coffee refreshments for the all-important relaxation and chat at the end of each session. Which is always a highlight!

We plan to use food from our harvest to share with the Community and coming up with recipe ideas to eventually create a Community Cookbook.

Who is the project for?

This project will benefit anyone who would like to get involved in growing food or an interest in gardening in general.

Everyone is welcome.

No experience is necessary.

Please vote for this project and come along and join the fun!
