

Cost: £5000
Project location: Eaglesham
& Waterfoot

Eaglesham & Waterfoot Community Food Larder

What is your project?

The larder sits in the Montgomerie Hall car park and is unlocked and stocked every Saturday from around 10am until 5pm. The larder is filled with groceries and toiletries for anyone to come and take. The larder is non-means tested and here for anyone in East Renfrewshire to use.

The larder enables people to get the help they need without having the stigma of asking for help or having to see anyone - it is simply there for the entire community. Over the last few months, we have seen a significant increase in the amount of food and toiletries being taken each week due to the cost of living crisis. This grant would enable us to keep going and ensure households in East Ren have access to this lifeline.

Who is the project for?

All residents in East Renfrewshire, in particular:
Children & young people, older people, those with disabilities, New Scots, Ukrainian families, those struggling during the cost of living crisis.

The cost of living crisis is touching us all now and the larder is there for anyone who needs it – no questions asked.
