

Cost: £5,000

Project location: Giffnock

## Cosgrove Care

Project name: **Weekend Warriors**

### What is your project?

We will deliver a weekend programme of activities for 60 children with learning disabilities, with mornings for 4-12 years olds and afternoons for 12-18 years olds. Cosgrove's 'Weekend Warriors' will focus on skills development, communication, and connections for these young people. We will provide transport, removing barriers for families in need living in East Renfrewshire.

This project will address what would otherwise be a lack of a regular club which addresses the specific needs of this vulnerable group in a fun way, focusing on friendships, new experiences and building skills and confidence. We have significant experience in creating a space and an atmosphere where children can fully embrace such opportunities.

### Who is the project for?

This project is for children and young people aged between 4 - 18 with learning disabilities, autism and other complex support needs who would otherwise not have equal access to these opportunities.
