Project name: In Cahootz Barrhead Drama

Project location: Barrhead

What is your project?

We deliver free weekly drama workshops in Barrhead. Our project aims to empower young people. Through drama we encourage the participants to believe in themselves, to have the confidence to speak up, and stand up for what they believe in. Our work develops through consultation with the young people, who have identified mental health and social inequalities as important issues to them. This fund would support us in continuing our free weekly workshops, allowing us to explore the themes and issues that are important to our young people. It will cover hall let costs and facilitator costs.

Who is the project for?

We currently work with between 55 – 60 young people in Barrhead every week. We have participants from all of the schools in the area. We engage with children and young people between the ages of 5 – 19.
