

**Cost: £5000**

**Project location: Various locations in the local East Renfrewshire community.**

**Project name: SupERclubs for SupERkids**

## **What is your project?**

### **SuPERclubs**

SupERkids would like to apply for funding to run out of school clubs and activities for children in East Renfrewshire with additional and multiple support needs. Our SupERkids need support to attend activities away from their families and cannot attend most mainstream clubs due to high levels of care and support required to keep them happy, safe and engaged.

We would like to run up to 18 clubs. We would hope to run a wide variety of activities that would link with the various interests and hobbies of our SupERkids. The choice of activities will be decided by the children. Children will have fun in a stimulating environment that helps develop their confidence, self-esteem and life skills.

## **Who is the project for?**

### **Children with additional support needs**

We plan to provide as many children with complex support needs, who live in East Renfrewshire, with fun sessions each week in their local community. The children would attend clubs with specialist support, without their parents, and have fun on an independent basis. This would also provide up to 540 hours of short breaks to their parents, carers and siblings.

Disability does not discriminate. All families can be affected by disability and the unfortunate experience of many local families is there are little opportunities for their children to thrive and grow at out of school activities. All our SupERkid families are carers who provide individualised and responsive care 24/7, 7 days a week, 365 day per year. Our SupERkid families cover all demographics from Uplawmoor to Eaglesham, family structures (such as lone parent families and kinship placements) as well as a wonderful variety of ethnicities and cultures.
